

STANZA WASH & DRY SYSTEM

TUBE & PIPE

TW SERIES

The Stanza Model TWH pipe and tube washer is a unique and flexible system. It is designed to upgrade your cleaning operation in the mill line by specifically targeting each operation in the cleaning and drying process.

CUSTOMIZEABLE MODULAR SYSTEM DESIGNED FOR: *WASHING-DEGREASING-SURFACE TREATING-DRYING*

The system utilizes a modular approach that allows the mill engineer to choose the number and type of module for the specific process required. The modules can then be custom sized to the available line space for a perfect fit!

AN ARRAY OF PROCESS CHOICES!

- High & Low Pressure Heated Wash
- Phosphate Treating
- Rinse
- Blow off & Dry
